

## Ready, Set, Go! *A Wildfire Preparedness Workshop*

**Location** Christ Church Santa Fe (Cordova and Don Gaspar)  
1213 Don Gaspar, Santa Fe, NM 87505

**Date/Time** Saturday, March 18th, 10 am – 12:30 pm

Last year's Hermits Peak Fire was devastating. As the 2023 fire season approaches, are you ready? Living with wildfire is about making changes before it happens. Can we create a safe and resilient community where fire plays its natural role without destroying lives and property?

Hermit's Peak Fire burned homes, displaced families, put firefighters at risk, degraded water quality, and cost millions of dollars. Threatening fires make us scramble and spend a lot of money reacting, then rebuilding. ***How can we prepare and break this cycle?***

Join us at **Ready, Set, Go!** to take positive steps to build a ***Fire Adapted Community***. Get information and help from the experts from the Santa Fe Fireshed Coalition, Forest Stewards Guild, City of Santa Fe Fire Department, Villages of Santa Fe, and Christ Church Santa Fe, Saturday, March 18th, 10 am–12:30 pm at Christ Church Santa Fe, corner of Cordova and Don Gaspar.

***The workshops are free and open to the public. Plenty of free parking***

### Why Attend?

- Understand 'What is a wildfire emergency' and create a plan for emergency evacuation
- Receive information about city and county services available
- Get motivated to take actions to reduce losses from a wildfire on your property
- Understand and support wildfire mitigation activities on public and private land
- Support and participate in the city's emergency planning and evacuation activities.
